SECTION 2 — IDENTIFIED GAPS (Information Missing from Source Documents)

⚠ These are items not explicitly stated in the source documents. They are NOT inferred or assumed — they are flagged as gaps requiring confirmation before ApprovalMax go-live.

#	Gap	Workflow Affected	Action Required
G1	**Board member ApprovalMax accounts not confirmed:** Allan Oginga (Board Chairperson) and CPA Charles Muhia (Board Treasurer) do not appear on the staff payroll list. Their ApprovalMax email addresses, user accounts, and MFA setup are not documented.	All Tier 3 and Tier 4 workflows	Confirm email addresses and create ApprovalMax accounts for Allan Oginga and CPA Charles Muhia before go-live
G2	**IT Administrator not identified:** The Data Access workflow refers to an IT Administrator for system access provisioning, but no individual is named or listed in the staff list.	Data Access Workflow (WF14)	Identify and document the IT Administrator responsible for access provisioning in ApprovalMax
G3	**Donor Report Financial Sign-Off workflow missing:** Table 1 lists "Donor Report Financial Sign-Off" as Workflow #11 (Medium priority). No detailed procedure table was found in the source document.	Donor Report Workflow	Obtain and document the detailed steps for Donor Report Financial Sign-Off workflow
G4	**Acting Finance Officer vs Acting Finance Manager — title distinction:** Janerose Nduta Motende is titled "Finance Assistant" on the January payroll but "Acting Finance Officer" in the Workflow Plan. Paul Ochieng' is "Finance Officer" on the January payroll but "Acting Finance Manager" in the Workflow Plan. The May 2026 staff list confirms revised titles. Confirm the operative titles for ApprovalMax user setup.	All workflows	Confirm operative titles for Janerose Nduta Motende and Paul Celvins Ochieng' for ApprovalMax user configuration
G5	**Volunteer ApprovalMax access level:** 35 volunteers are listed in the MERL Department. The source document does not specify what system access (if any) volunteers should have in ApprovalMax.	Data Access Workflow	Define and document volunteer access level in ApprovalMax (read-only / no access / limited requestor access)
G6	**Board ODC notification mechanism not specified:** The Budget Adjustment workflow references "Board communication via ODC" but the specific communication channel (email, formal report, board meeting minute) is not defined.	Budget Adjustment Workflow (WF07)	Define the specific Board ODC notification mechanism and document in ApprovalMax as a notification action
G7	**Rosemary Gathara (Executive Director) status:** The January 2026 payroll includes Rosemary Gathara as Executive Director. The May 2026 staff list and workflow document reference Rebecca Mbaya as Acting ED. Rosemary Gathara's departure or leave status is not documented in the workflow plan.	All ED-approval workflows	Confirm Rosemary Gathara's current employment status and whether her ApprovalMax account should be deactivated
G8	**Procurement prequalified supplier list:** The workflow references that the Operations & HR Manager "maintains the prequalified supplier list" but the list itself and the process for adding/removing suppliers is not documented.	Purchase Requisition Workflow (WF01)	Provide the prequalified supplier list and document the supplier onboarding / offboarding process for ApprovalMax

SECTION 3 — POTENTIAL POLICY AMBIGUITY REPORT

#	Ambiguity	Workflow	Document Section	Recommendation
A1	**Bill approval at exactly KES 100,000:** The bill approval table specifies "Acting Finance Manager approves bills KES 5,000 to 99,999" and "Acting ED approves bills above KES 100,000." The treatment of a bill for exactly KES 100,000 is ambiguous (is it 99,999 tier or 100,000+ tier?).	Supplier Bill Workflow (WF02)	Table 5	Recommend confirming with Finance Manager: KES 100,000 treated as Tier 2 (requiring Acting ED approval)
A2	**Procurement splitting — 30-day rolling window:** The procurement splitting control applies to "same supplier, same project code, within 30 days." It is not specified whether this is a rolling 30-day window or a calendar month.	Purchase Requisition (WF01)	Table 4	Confirm with Operations & HR Manager whether this is a rolling 30-day window or a calendar month for ApprovalMax rule configuration
A3	**Acting ED payroll self-segregation:** The document states "Acting ED may not approve payroll entries she herself prepared in a Finance capacity; such entries are re-routed to Board Treasurer." It is not specified who monitors or flags this conflict automatically.	Payroll Workflow (WF05)	Table 9, Step 4	Determine whether this is a manual declaration or an automated ApprovalMax routing rule. Document the trigger mechanism
A4	**Disposal approval basis (original price vs. NBV):** The disposal approval tiers are "based on original purchase price." However, for heavily depreciated assets, the original price may create disproportionate Board involvement. This is the stated policy — flagged for awareness only, not a gap.	Asset Disposal (WF10)	Table 14, Step 4	Confirmed as explicit policy. No change required. Board to note this may require Board involvement for old low-value assets
A5	**Single-sourcing at exactly KES 5,000:** Single sourcing is "restricted to KES 5,000 or below." It is not clear if exactly KES 5,000 is permitted as single-source.	Purchase Requisition (WF01)	Table 4	Recommend treating KES 5,000 as the maximum inclusive of single sourcing. Confirm with Operations & HR Manager
