16	Escalation	Table 20	4 escalation levels	24h / 48h / 72h / 96h triggers	Critical delay lock at 96 hours	✓ VALIDATED

SECTION 2 — IDENTIFIED GAPS — RESOLUTION STATUS

#	Gap	Workflow Affected	Resolution / Status
G1	Board member ApprovalMax accounts: Boniface Chitayi (Board Chairperson) and CPA Charles Muhia (Board Treasurer) did not appear on the staff payroll list.	All Tier 3 and Tier 4 workflows	RESOLVED. Email addresses confirmed: CPA Charles Muhia — cmuhia@basicneedskenya.org; Boniface Chitayi — chitayib@gmail.com. ApprovalMax accounts to be created and MFA activated before go-live.
G2	IT Administrator not identified: The Data Access workflow refers to an IT Administrator for system access provisioning, but no individual is named.	Data Access Workflow (WF14)	PENDING. Confirmation required from the Operations & HR Manager or Executive Director. IT Administrator must be identified, named in ApprovalMax, and MFA-activated before go-live.
G3	Donor Report Financial Sign-Off workflow missing: Table 1 lists "Donor Report Financial Sign-Off" as Workflow 11 (Medium priority). No detailed procedure table was present in the source document.	Donor Report Workflow	RESOLVED. Sign-off sequence confirmed: Acting Finance Manager → Programs Manager → Acting Executive Director. Workflow added — see Section 4 below.
G4	Operative titles — Acting Finance Officer and Acting Finance Manager: January 2026 payroll listed different titles from the Workflow Plan.	All workflows	RESOLVED. Operative titles confirmed: Janerose Nduta Motende — Acting Finance Officer; Paul Celvins Ochieng' — Acting Finance Manager. These titles apply for all ApprovalMax configuration.
G5	Volunteer ApprovalMax access level: 35 volunteers are listed in the MERL Department with no specified access level.	Data Access Workflow (WF14)	RESOLVED. Access level for all 35 MERL Department volunteers: LIMITED REQUESTOR ACCESS only. No approval authority. No access to payroll, health, or beneficiary data.
G6	Board ODC notification mechanism: Budget Adjustment workflow referenced "Board communication via ODC" without specifying the channel.	Budget Adjustment Workflow (WF07)	RESOLVED. Board ODC notification is executed via BNBR Board ODC meetings, referenced by meeting invites and board minutes. ApprovalMax triggers the notification flag; the Operations & HR Manager distributes via the ODC meeting invite.
G7	Rosemary Gathara (Executive Director) status: January 2026 payroll listed Rosemary Gathara as Executive Director.	All ED-approval workflows	RESOLVED. Rosemary Gathara left the organisation on 15 May 2026. Her ApprovalMax and Xero accounts must be deactivated with immediate effect. Rebecca Mbaya (Acting ED) remains the sole ED-level approver.
G8	Procurement prequalified supplier list: The workflow references the Operations & HR Manager maintaining a prequalified supplier list, but the list was not provided.	Purchase Requisition Workflow (WF01)	PENDING. Confirmation required from the Operations & HR Manager. The list and the supplier onboarding/offboarding process must be documented and loaded into ApprovalMax before go-live.

SECTION 3 — POLICY AMBIGUITIES — RESOLUTION STATUS

#	Ambiguity	Workflow	Policy Resolution	Action
A1	Bill approval at exactly KES 100,000.	Supplier Bill Workflow (WF02)	RESOLVED — Finance Policy Section 4.2(b)(2): "Any disbursement above KES 100,000 must be approved by the Executive Director." KES 100,000 exactly therefore remains in the Finance Manager / Programs Manager tier. Only amounts exceeding KES 100,000.00 route to the Acting ED.	Configure ApprovalMax threshold as: Finance Manager tier = KES 5,000 to KES 100,000 inclusive. ED tier = above KES 100,000 (i.e., KES 100,000.01 and above).
A2	Procurement splitting — rolling 30-day window vs calendar month.	Purchase Requisition (WF01)	RESOLVED — Procurement Policy Section 3(a)(3.1.4): Prohibits artificial division of procurement to evade delegation levels. The policy does not specify a day count, but establishes that multiple orders with the same supplier for similar projects must be substantiated by the operations department and approved by the Procurement Committee.	Configure ApprovalMax using a rolling 30-day window rule to flag transactions from the same vendor and project code. This is the more conservative and auditable configuration.
A3	Acting ED payroll self-segregation — manual vs automated trigger.	Payroll Workflow (WF05)	RESOLVED — Finance Policy Section 2.2.3(a): Mandates absolute segregation of duties across authorisation, execution, recording, and reconciliation. Manual declarations are insufficient for internal control compliance.	Configure an automated conditional routing rule in ApprovalMax: If Preparer = Acting ED, the ED Approval node is skipped and the item routes directly to the Board Treasurer (CPA Charles Muhia). No manual intervention required.
A4	Asset disposal approval basis — original purchase price vs Net Book Value.	Asset Disposal (WF10)	CONFIRMED AS POLICY — Procurement Policy Section 9(c)(v): "Disposal approvals shall be aligned to the procurement approval matrix based on the purchase price provided in Section 8.1 of this policy."	No workflow change required. This is an explicit and deliberate policy choice. The Board is aware this may require Board-level involvement for heavily depreciated assets.
A5	Single sourcing at exactly KES 5,000.	Purchase Requisition (WF01)	RESOLVED — Procurement Policy Section 8(a) threshold matrix takes precedence over Section 7 text: Single sourcing applies strictly from KES 0.00 to KES 4,999.99. Competitive bidding (minimum 3 quotations) is mandatory at KES 5,000.00 and above.	Configure ApprovalMax so that single-source configuration applies up to KES 4,999.99 only. The 3-quotation attachment validation is enforced at KES 5,000.00 and above without exception.

SECTION 4 — DONOR REPORT FINANCIAL SIGN-OFF WORKFLOW (G3 Resolution)

Workflow Name: Donor Report Financial Sign-Off **Priority:** Medium | **Xero Transaction:** Report Attachment and Journal **Policy Basis:** Finance Policy Section 8.3

Step	Action	Approver	SLA
1	Acting Finance Officer prepares financial data for the donor report. Figures reconciled against Xero tracking categories for the relevant donor and period. Report attached in ApprovalMax as a draft.	Acting Finance Officer (Janerose Nduta Motende)	By reporting deadline
2	Acting Finance Manager reviews financial accuracy, confirms donor budget compliance, verifies all expenditure lines are within approved donor budget, and checks that statutory deductions and WHT are correctly reflected.	Acting Finance Manager (Paul Celvins Ochieng')	24 hours
3	Programs Manager reviews narrative consistency with financial data. Confirms programmatic outputs match expenditure. Signs off on donor report completeness.	Programs Manager (Geoffrey Khira)	24 hours
4	Acting Executive Director gives final authorisation. Signed report uploaded to ApprovalMax and submitted to donor.	Acting ED (Rebecca Mbaya)	48 hours
